

Laisse-moi

Collectif Primavez

Technical sheet

Laisse-moi is designed for indoor and outdoor use (theatres, squares, non-conventional spaces, gymnasiums, etc.).

- A show for all audiences aged 7 and over. It is not specifically designed for children. Audience: 500 people (in case of larger capacity, please contact the company). Duration: 50 minutes.
- 3 - 4 people on tour.
- Installation of the Chinese flagpole: free-standing (see plan).
- Assembly time: 4 hours (contact the company's technician to arrange a timetable).
- Dismantling: 1 hour (contact the company's technician to arrange a timetable).
- Arrival of the company at the venue 5 hours before the performance.
- 2 performances per day.

Conditions required to host us:

- A venue protected from noise disturbance, for optimal listening.
- Ideal configuration: allowing good visibility 220° with the possibility of a 360° configuration.
- In the event that the performance venue generates a lot of humidity (due to climate or proximity to a river...), the night performance could not take place for the safety of the artists (check details with the company).
- Consider changing the time and place of the performance in case the temperature exceeds 30°C (check details with the company).

We recommend the use of bleachers, carpeting and/or cushions; as much as possible to guarantee the comfort and visibility of the audience (* At the organisation's expense).

Technique:

Chinese mast installation : freestanding, unanchored and provided by the company...

Minimum stage space:

10 metres x 9 metres without audience.

14 metres x 12 metres with seated audience.

Minimum height: 7 metres.

Optimum height: 8 metres.

- Straight, smooth, flat and even floor.

Sound:

- 2 Loudspeakers model QSC 12.2 of 2000w.
2 Aer Compact 3 of 1000w.
- A power socket is required near the stage space.
- In case you want to support with the festival's sound, please contact the company.

* In case of travel by plane, the sound must be provided by the organisation.

Lighting:

Lights for the night street format have to be provided by the organisation:

- General lighting.
- 4 PAR 1 kW on floor plates.
- 4 feet with 4 PC 1 kW on each foot.

Personnel required:

- 2 support staff for set-up (not required to be technical staff).
- 2 people to seat the audience so that the performance runs smoothly (If this is not your task, feel free to let the people involved know).

Scenography:

- Double Chinese pole: 6 metres each.
- 4 anchor points provided by the company.
- Linoleum 8 metres x 8 metres provided by the company.

Transport of scenery:

- Motorhome: Fiât Ducato.
- Registration number: **CR 336 CJ**.
- Country of vehicle: France.
- Measurements: 7.3 metres long, 2.5 metres wide, 2.80 metres high.

*** In case of air travel:**

- Provide 17 folding chairs.
- Provide a carpet of 1.5m x 1m (* Not compulsory, please consult the company).
- Stage baggage 2 suitcases of 23kg (including 1 of 23cm x 23cm x 200cm; oversized luggage) + 2 Cabin baggage of 10kg.

Miscellaneous:

- Access to the stage space with the vehicle. If this is not possible, please contact the technician.
- Dressing room near the performance venue with toilet and mirror.
- Drinks: **do not provide bottled water, we will bring our own bottles.**
- In case of catering: fruit, nuts, cereal bars, dark chocolate and fruit juices.

* This is a simple set-up show. If there are any problems with any of the details in this technical sheet, the conditions can be negotiated in advance to try to modify them as far as possible.
