

TECHNICAL RIDER FOR THE FESTIVAL TECHNICAL TEAM

IMPROLOCURA

Duration of the show: approximately 40 minutes

Break between two performances: minimum 1 hour

Sound system:

Improlocura is a fully autonomous show in terms of sound system and power supply.

In the case of a very large space or a particularly large audience, it may be useful to connect the artist's equipment to a sound system provided by the organizers.

In this case, the organizers are kindly requested to provide:

- an additional sound system to complement the artist's equipment,
- access to an electrical outlet before the show to recharge the devices,
- the possibility to connect the microphone receiver (6.35 mm jack input) to the audio system

Set-up / dismantling time: 10 minutes

Road travel:

- Vehicle / caravan: Fiat Ducato Camper DV223JB
- Dimensions: 8 m long, 2.3 m wide, 2.80 m high

Air transportation:

- 1 carry-on luggage (10 kg)
- 1 checked luggage (20 kg)

Scenography:

Handcrafted wooden cart with integrated audio system.

Air transportation

Road travel

Performance area:

- Minimum: 6 m x 7 m
- Ideal: 10 m x 12 m

Recommendations regarding the performance space:

It is strongly recommended to position the Improlocura performance area so that Agro has free space behind him, not with his back against a wall, ideally with a passage of people, in order to encourage improvisation and offer the audience a constantly renewed experience.

Audience layout: preferably 180 degrees
